**City of Paducah Receives a 100% on Law Enforcement and Risk Management Scorecards from KLCIS**

**PADUCAH, KY**— The Kentucky League of Cities Insurance Services (KLCIS) recently notified Mayor Bill Paxton that the City of Paducah has received a 100 percent score on its risk management and law enforcement scorecards. The KLCIS is the City of Paducah's insurance carrier. City of Paducah Risk Manager, Cindy Medford, says, "We've seen continual improvement year after year, thanks to hard-working, safety-conscious employees and leadership."

Less than one percent of the KLCIS membership achieves a 100 percent score for loss control efforts. Ned Wertz, Director of Underwriting and Loss Control Services, says, "This speaks to the level of commitment the City of Paducah has made to improving safety efforts not only for city employees but for the citizens. This achievement could not have been reached without the support and leadership of Mayor Paxton and Chief of Police James Berry. Mayor Paxton and Chief Berry are supportive of all loss control efforts because they know the positive effect this has on cities."

The KLCIS will present Paducah with plaques in recognition of these achievements September 17 at the Kentucky League of Cities Annual Conference and Expo in Louisville, Kentucky.

The KLCIS conducts loss control surveys and scorecards for its members, which can lead to reductions in premiums. Throughout the course of a policy year, the loss control staff will visit cities, fill out a loss control scorecard, and make recommendations to members on ways to improve safety, reduce claims, and implement best practices in their day-to-day operations.

There are three separate scorecards: General Liability, Workers' Compensation, and Law Enforcement. If the score is between 60 and 100%, a KLCIS member can save money on its annual insurance premiums.
