Dear Mayor Bray,

I will make Paducah beautiful by helping to keep to keep our city clean and being helpful. Read on to learn more.

First, I will help keep our city clean by picking up after myself. To help pickup litter even tho it might not be mine.

Next, I will be helpful by helping others that are in need.

In conclusion, this is how I will make Paducah beautiful.

I will help

make Paducah beautiful by planting flowers and being kind. Read on to hear more.

First, we need a zoo we don't have one. I like big water parks the ones we have now. I like but I go all day long it fun. We need to recycle I see a lot of people don't recycle but we need to and if we don't the ocean is going to be nasty and fill of water balls. We need more people to clean up the river a lot more I go down to the river it is so nasty it like a home is not clean but that all I think we need more of.

To start I like the park it big it has a pool two parks in it it has a lot of football space. I like the mall it the most place I go to nick I go to chicer flav and that it are town is big and grate there is nothing Bab about it you can find stuff easily and it not hard.

Aijah Smith

Dear Mayor Bray,

I will help make Paducah beautiful by going through with building the sports complex. Read on to hear more!

First, the sports complex would make Paducah beautiful because it would be a big attraction to sports teams. The sports teams would want to practice and compete there from are community and other ones, because it would be more convenient than to drive all the way to Owensboro or St. Louis. If sports teams in Paducah (Pumas FC) go there almost every weekend, their more likely to spend more money there than in are community if we can hold sports tournaments here. That would help the community by giving businesses more business. Because other sports teams would stay their because it's a big attraction to compete and they wound must eat in Paducah, and maybe go to some other stores as well and spend more money so us in Paducah have more money cycling around. I know this because in my experience, my parents drive to me to St. Louis a lot for soccer. We normally eat there and spend money their when we could be spending it in are town.

Also, it would help by bring safety to sports players. This would bring safety because are soccer fields get muddy and slippery when it rains, and when kids slip, they could break, twist, or sprain a bone. Also, it brings a big possibility to get a conclusion which is very bad for kids because their brains are still forming and learning. Also, are soccer fields in McCracken County get very uneven and sometimes there are some big patches of grass, and some have just dirt. This means players have a bigger chance of tripping and getting hurt. Which is a huge safety concern for lots of people. Just imagen dribbling up to the ball and shooting

because you twisted your ankle. I have played on those fields from sense I first started playing soccer, for 6 ½ years, more than half of my life (I'm 10)! You trip a lot from soccer but, not more than you do because of the field.

In conclusion, we can make Paducah beautiful by building the Sports complex because it would be an attraction and help the safety of players.

Sincerely,

Ali Warmath

Dear Mayor Bray,

I will make Paducah a beautiful place by helping those in need and picking up litter and trash. Read on to find out more details.

First, I will help those in need by helping elders cross the street and help when they cannot walk very well. Also, I will help by donating to those who need it more than I do and donating to charities could help so many people who need it. Another way is to help is providing homes or shelter to people or even animals who need it to survive. Finally, a way to help people in need is by just being kind to them they might be having a distressing day and not just those in need being kind to anyone could make them feel better I know I would love to go to school every day if everyone was so kind to everybody.

Last, I will help Paducah by picking up trash and litter. One way you/I can help is when your down by the river there can be a lot of trash and litter if everybody helped pick up at least two pieces every day there would be about 55000 pieces of trash picked up so, that would make Paducah look much more beautiful. Another way that I can help pick up trash/litter is by recycle this can help by not polluting oceans and rivers which make our town very pretty. Next, I can help when I'm walking home from school I can pick up trash or even get some friends to get gloves and trash bags and we could go around our neighborhood so it will be clean. Finally, at school we have a recycling team so we don't litter by throwing away reusable resources.

This concludes how I/you can help Paducah become more beautiful. Although it might take work and time it will pay off.

Araceli Hernandez Gaspari

Clark Elementary School

Mrs. Steven's 5

Dear Mayor Bray,

I will help make Paducah beautiful by donating money to people in need and plant flowers and trees. Read on to hear more.

First, I would want to donate money to people in need because I like meeting persons and I like helping people.

Then, I like planting trees and flowers because at my house I have seven trees and fifteen flowers.

Sincerely, Anamaria Hernandez

Gaspar.

think that we should stop smoking and hunting for wild animals.

First, I think we should stop smoking because it's bad for the environment because it's bad for people. Physically it doesn't help the environment.

Second, I think that hunting animals is bad because the animals can go extinct and we won't have any animals. Plus we want animals to live, not die.

Third, the environment should stay because we want more people to come to Paduch. But if we are smoking and hunting we will never

We should stop hunting,
and smoking. Sincerely,
Anna W.

Dear Mayor Bray,

I will help make Paducah beautiful by picking up trash and being kind and help people in need. Read on to hear more!

First, I will help pick up trash at my house, my relatives house, at my school, and around town because I want my town to be beautiful so that when visitors come they don't think that are town is really dirty I want them to think that are town is beautiful so that when they go back to where they came from they tell other people about are town and how beautiful it is.

Next, I will be kind, so that visitors tell other people were they came from that we are kind and maybe they will want to come and see our town and maybe they might want to live here or stay for awhile and they can hopefully see the beauty in Paducah.

Finally, I want to help people in need because some people in need can't afford to have a home and the few homeless shelters are full in Paducah and some people can't afford food so, I want to help people in need by donating money so they might be able to get a house and afford a car, food, water, and other thing we need to survive.

Sincerely, Ansley.Mills

Dear Mayor Bray,

I will help make Paducah beautiful by recycling and planting flowers read on to hear more!

First, I would plant flowers in my yard and maybe a tree too. Then I would ask some other people if they want me to plant flowers in their yards. Some of the flowers I would plant are , Peonies, Hydrangeas, and maybe some Dahlias.

Next, I would recycle some things like bottles, paper, and cans. At school there is a recycling team I am on and we go to every class and take the recycling bin downstairs to put in a truck. Maybe I could help recycle in my neighborhood with the other kids.

Sincerely, Arya Shemwell

Dear Mayor Bray,

I have heard that you are planning to do a beautification project in Paducah. I have some ideas to share. I will help my community to pick up trash in the park and help plant flowers.

First of all, I would get a group of friends and pick up trash every month. Then, we will put up signs and flyers that say stop littering. Finally, this will clean up our city and keep it clean.

Another way to help is by planting flowers. If you want to plant flowers you just plant seeds and water then they will bloom beautifully in the spring. Next, the vibrant colors will brighten peoples day. Instead of everyone being mad and sad we will be happy and nice to everyone.

As you can see, planting flowers and picking up trash beautifies our community. Thank you for considering my ideas to make our city more beautiful.

Sincerely,
Ashtyn McReynolds

Dear Mayor Bray,

I understand that you would like to work on making Paducah a more beautiful community. Although our city is very nice I have some suggestions for making it even nicer, and I can help. I will help make my community better by picking up litter and making a community garden.

First of all I will get some volunteers to help build a community garden. It could be located in the grass area at Noble Park next to the playground. I think the community garden will look nice if we plant flowers in it. Also for people who are less fortunate we can plant foods like carrots and veggies. Anyone could plant any time they wanted.

Finally, I can clean up litter. It will happen kind of like the community garden where I will get volunteers to help pick up litter. It can happen once every month. You could also add more trash cans places or even some recycling bins to encourage people to throw away their trash.

As you can see, making a community garden and picking up litter can somewhat beautify Pauducah. Thank you for your time and hope you have great suggestions from my friends

Sincerely,
Aubrey Augustus

Dear Mayor Bray,

I will help make Paducah beautiful by recycling and donating money to people in need.

First, I will recycle plastic. Recycling plastic can be a great way to save the turtles. Plastic is very dangerous to turtles in the ocean. Plastic could harm any type of animals in the Ocean. Turtles and animals can be swimming and they could easily get stuck in plastic.

Next, I will donate money to people in need. Donating money would really help people who have very little money. This would help people to buy food and water. They could even get an apartment. This could help them stay warm in the winter. If they have children, the kids could stay warm.

In Conclusion, this is how we could make Paducah beautiful by recycling and donating to people in need.

Sincerely,

Dear Mayer Bray,

I understand that you would like to work on making Paducah a more beautiful place. I think Paducah is nice already but I have a few suggestions that would make it a better place and environment to visit and live in. I can help. I will help make my community better by neighborhood patrol and to go around for needs.

First of all, I will make a neighborhood patrol to help out. I will gather up all of my friends and we will help out. Secondly, we will need trash picker uppers and flower seeds to help out. We [Me and my friends] will ride around on our dirt bikes and pick up trash to put in a big trash bin. The seeds would be used for the flower patch in my neighborhood so that we can start something and make my neighborhood prettier. Finally, we would see if there were any trash cans that had fallen over as well as any poop or things to be taken care of. As you can see, my neighborhood patrol will help make Paducah a beautiful place.

To start, I will go around and to help the city. Me, family, and friends will join and get a trailer to help. Next, we would go around to clean up ditches and we would clean up the downtown area. We could get special appliances and utilities to help out. Lastly, litter would be taken care of with our fabulous. We will try to pick up the equivalent of three to four trash bins while working whenever we are free. In conclusion, my fantabulous crew will be the reason Paducah is the most beautiful place in Kentucky.

In summary, my extraordinary ideas can make our city be super beautiful. I really hope my crews and other people's ideas work to make Paducah the beautiful and amazing place it is.

Sincerely,
Banks Orr

Clark Elementary School

Mrs. Mohs

5th Grade

Dear Mayor Bray,

I will help keep Paducah beautiful by cleaning up the trash and picking up dog waste. Read on to find out more.

First, I will pick up trash by after one of my softball games I can go around and pick up the trash and litter that people do care to pick up . I want to help the community with trash because if it goes into the ocean than a turtle of some creature eats it they can die and that would be really sad if they do. I'm going to pick up trash because if you put trash in the can you can put it in a dumpster and when you do that you can make new things like a fork, spoon, knife, and more stuff you use.

Next ,I will pick up my dogs waste I want to do that because some people don't like when people leave there dogs waste in there yard. If someone just got new shoes I'm sure that they do not want dog waste on them. I also want to help pick up dog waste because some people like me hate the smell of it and the more it keeps popping in the yard its going to get really smelly and we don't need to have dog waste smelling air.

In conclusion, this is why I want to help Paducah with trash and dog waste.

Dear Mayor Day, I will help
make Paducah beautiful by being
kind and plant flowers. First I'll
be kind by asking people if they
had a good day and by cleaning
peoples yards and help them every day
Next I will plant flowers at the
Park and School and at home.
In condusion that is why I
cose plant flowers and be kind.

Sincerely Bella Vinson

Sincerely Bella Vinson

Clark elementary

5th grade

Dear Mayor Bray,

I will help make Paducah beautiful by Recycling, donating money to charities, and by requesting you build an attraction people would enjoy. Read on to hear more!

First, I can make Paducah beautiful by recycling. Lately there's been a lot of talk about our planet, so I feel the best way I could help is by recycling. Not only would it help our community but also it could help others. Tons of animals die every year to plastic in rivers and streams, and if you go downtown, you can see that the river is dirty. So, if people could recycle then lots of animal's lives would be saved and our town would be better looking than ever.

Next, I could help Paducah by donating money to charities. Around town you can see some people who live

on the streets without a home or food, so I could help by donating money so they could have a place to live. Also, some people can't afford to go to a hospital to get help if they need it, so I think that is a problem we need to solve. Some kids who's family doesn't have a lot of money probably can't afford to go to school, so if I were to donate money that could probably make a difference in not only their life but their kin as well. If people could just donate money to help others, then the town won't have as many people living on the streets and will look much nicer.

Lastly, to make the town nicer we should have more attractions. Not only people that live here could have a place to have entertainment, but the town would get a lot more visitors, which would forward into much more money for the town. My idea for this attraction is a museum, this great town has a very colorful history, so we could not only display artifacts, but it would tell the story of our city. This could be a great spot where kids could learn, plus there are a lot of old buildings that nobody uses anymore so I don't think it would be hard to find a spot to build.

This is how I can make the city of Paducah a beautiful by recycling, donating, and building something everyone will enjoy.

Sincerely,
Brayden Clark

Dear mayor bray,

I will help make Paducah beautiful by planting flowers and being kind. Read on to hear more. First I pick up trash in the community and some times plant flowers there.

Second I like to donate to charity when I don't play with some thing or I don't use something I donate it to charity.

My name is Brayden Mayfield and I am in mrs' lambert's class

Clark Elementary school

Mrs. Paxon

5th grade

Dear Mayor Bray,

I will help make Paducah beautiful by planting flowers and building stuff read on to hear more!

First, I will help make Paducah beautiful by planting flowers. I think if we plant flowers our town will look more beautiful and colorful, and people will want to come more often because it's beautiful. I also think people will like it because it will be so bright in our town and make it look good. It will also help because it will make our town smell good.

Next, I will build things, so people want to come back. I will build things like amusement parks with fun rides that people will come or come back to ride. Or I can build more clothing stores so people can buy clothes and jackets to be warm. People might also need homeless shelters if they just came and can't afford a house just yet so they can stay there.

In conclusion this is how I will help make Paducah beautiful.

Sincerely, Brayson Thurman

Dear Mayor Bray,

I will help make Paducah beautiful by planting flowers and being kind road on to more help.

Frist, we need to pick up trash is harmful to animals, and it make the environment look bad so that is the best thing to do. Also, that stuff can get in the river and wash up on shore and when people come in form out of town, they will be like ewe that is nasty.

Next, pick up your dogs poop it is so annoying when you are play outside and all the sounded you step in you know what and then you have to rube your shoe off for like five minutes. And it does not make everything smell nasty and stinky.

Finally, be kind to people like if you have a neighbor that can noy maybe around good help them mow or help them move around and go get groceries. And you can help him maybe go in and out and give him company and just make him happy and fell like a friend.

Sincerely,

Brody Shannon

Dear Mayor Bay,

I will make paducah beautiful by picking up trash and donating to charities.

First, I can pick up trash, I will pick up trash at the park, schools, roads and at houses. Also, I will put the trash in the trash can and the plastic in the recycling bin.

Next, I can donate to charities. I could donate to hospitals and nursing homes. I am going to donate 30,000 dollars to a school when I grow up. Donating is not only good for the people you donating too it makes you look better.

In conclusion, this is how I would make Paducah Beautiful.

Sincerely,
D. J. Bay

Dear Mayor Bray,

I think Paducah does not look the best at times so that is why I also think that Paducah needs more beauty. I understand why you asked us what we need to do to make this city more beautiful. I have a few ideas on how I can help make Paducah beautiful by cleaning up my neighborhood and my house, having a community day, and cleaning up the lake and river.

First of all, I will get my neighbors to help clean our neighborhood. We will put flowers out by mailboxes or back/front pouches and clean up any trash we see. We can do it when we see that it needs to be done.

Also, we can have a community day. We can pick up trash that day and repaint any old building and plant trees and flowers and make the community more beautiful.

Lastly, we can clean up the river/lake. we would get all the gross smelly dead fish out of there and all the trash and the dead fish. It will be a great thing to do to make the water ways more beautiful.

As you can see, if we do all of this it will make our community more beautiful. It will definitely be a great thing to do.

Sincerely,
Brooklyn Bundren

I will help make Paducah beautiful by picking up trash and being kind. Read on to hear more!

First, I can help Paducah by picking up the waste/litter I can also clean the waste out of the bodies of water. The bodies of water are filled with waste so I can help Paducah by cleaning the trash out of the water. I can also plant flowers and trees, I can recycle, and not burn trash. If you inhale the fumes from burning trash it can cause long term health problems and that would not be good for the city of Paducah.

Also, being kind to people if someone walks into Paducah you want to be nice to them because they will say it is a great town when they go back to their hometown. then he/she will invite their friends to Paducah, and they will use our hotels and we can get more money to upgrade Paducah like we need more healthier restaurants in Paducah and more parks, more zoos, and sports complex. We need to donate to charity and help people in need.

Sincerely, Caleb Skiles

Name Caleb Skiles

School Clark Elementary

Teacher Mrs. Stevens

Grade 5th

Dear Mayor Bray,

I will make Paducah beautiful both inside and out. By picking up trash and being kind to visitors. If you want to hear more read on!

First, I think we can make Paducah more beautiful is adding a zoo and exotic pet shop. The reason I think we should add these additions is the average zoo gets 3.5 to 3.7 million visitors a year! So that will make Paducah so much money so we can make it even more beautiful. The exotic pet shop would be good because 1 in 10 people own an exotic pet and we might with permission from the law have really exotic pets like capybaras, alligators, prairie dogs, and others.

Secondly, another way we can make Paducah more beautiful is adding a museum. This will make Paducah more beautiful because Kentucky has so much rich history. The Saint

**LOUIS ARCH, THE LOUIS AND CLARK EXPEDITION,
and all the native American tribes that have
lived on this state for thousands of years.**

**And that is the way that we can make
Paducah more beautiful.**

CALVIN TUCKER

Clark Elementary School

Sincerely,

Mrs. Mhos

CALVIN O,NEAL TUCKER

5TH GRADE

Dear Mayor Gray,
To Begin, I will help make Paducah beautiful by picking up litter and donating money to people in need. Because so many people just leave all their trash on the ground while there being a trash can right beside them. I find people not even caring for trash, in result many animals die from this. Some people even gather trash then just through it on the streets and leaves it there to rot. I think this is one way we can make Paducah more beautiful.

Lastly, Donating money to people in need. I think donating would help have ore smiling faces. I also think that every church should care for the homeless. This way every church could take a great part in helping the homeless. And helping donate could at least give them something to eat or to ware. This is another way that Paducah can better.

In conclusion these are some ways that Paducah can be better, thank you for reading.

Caroline Blackmon

Dear Mayor Bray,

I will help make Paducah beautiful by making sure it stays clean.

First, I will plant sunflowers, roses and daisies.

Lastly, I will donate Money, Food, Water to people in need and also to charities and also be kind to others and the environment, and it's animals to.

Dear Mayor Bray Clark Elementary by Cayden in 5th teacher is Mrs. Wilson

I will help make Paducah beautiful by building a reseraunt, and places, and donate money, and pick up trash. First I would like to build places like a shelter so people can have babys, and resteraunt people eat more food at resteraunts. To people to thay can look at amls at the zoo.

Also Donat mony to the homs lis to thay can hav a .Homs, and donatto peapl that don't hav stuf to thay can hav stuf.

Finally pick up trash to padcah can look nies, and good to

As you can see padcah is a good plas goodby Mayor Bray

Celia M. Veal

Clark Elementary

Ms. Paxon

5th grade

Dear Mayer Bray,

I will help make Paducah
beautiful by planting flowers
and fruit and recycling read on
to hear more.

First, planting flowers and fruit
is very healthy for the

environment and it also helps other people too. For example the farmers market it would not be there if there were no farmers or just people who grow plants. I have a tomato plant in my backyard we go out every day to water it and when there is some that are ready we eat them my sister doesn't like tomatoes so me my mom and brother eat them. And the animals eat plants too and

some eat them to survive and if we don't grow plants you know what happens. And that's why we should grow plants to have a better environment.

Next we've got to recycle and also not waste paper, paper towels, toilet paper so we don't kill the trees. I recycle all the time now every time I throw paper away it goes in the

recycling box now its just a
habbit so recycle.

And these are things that make
Paducah beautiful.

2

Mrs. Mohs

Clark elementary

5th

Dear Mayor Bray,

I will help make Paducah beautiful by recycling and not littering. Read on to hear more.

To begin, I will recycle my recyclable items. One reason why I will recycle is because nobody wants to visit or live in a town with a large landfill, so more people will come to Paducah. More people in Paducah means more money for local businesses owners and that's always good for our economy. Recycling is also good for Paducah because people are more inclined to buy something like milk if the jug is made with recycled plastic, making local grocery store owners happier.

Another thing I will do to help Paducah is not littering. Not only is trash bad for our wildlife and marine life, but it also makes tourists and newer residents more likely to come back. If you were a tourist, would you want to take a stroll at riverfront and see plastic bags and drink cans? Probably not. More tourists in Paducah means better business for local store owners.

I believe everyone should take time out of their day to help our community, even if it is a few seconds of picking up a can, or hours of service, everyone can and should help Paducah.

Sincerely,

Charlotte Bray

I will help make Paducah beautiful. By get local artis to paint. And I will help homeless people get of their feet. Read more to hear more.

For example, if you are taking a walk down town you would see rushing people going everywhere. But if you look close enough. You can see many buildings and they are well not pretty. We can help that by getting local artis to well paint. You might be saying well it is just paint nothing to see hear. But wait there are some morals, but we need more. People want to go to a art museum or town would be a art museum.

Plus, there are so many homeless. People out there wondering when their next meal well be. To me that is sad. I am a girl scout and we are really underappreciated I have helped with homeless . And it is so sad.

This is what we can do to make the world or just Paducah a better place.

By charlotte Headrick homeroom MS. Stevens from clark elementary

Name: Chloe Hill

School: Clark Elementary

Teacher: Kate, Lambert

Grade: 5

Dear Mayor Bray,

I will help make Paducah beautiful by performing my student-lead production, donate to people in need, and pick up dog waste. Read on to hear more!

To start, performing the play I wrote will make the town independent and responsible because I did the work myself. People will think Paducah is an intelligent city because imagine, a student lead production will make people want to take their children to schools in Paducah because if I did that myself, they would think their child/children can learn a lot too.

Plus, donating to people in-need will make the town happier, because of all the sick or homeless people the town could look a little sad. If we donate the homeless people can be hired for jobs and have a place to live in. At my church there is a pantry filled with cans of food so the homeless can take what they need out of the pantry for free. By the way, there isn't just homeless people in Paducah, but sick people too! One time, me and my mom found someone needing money because a loved one needed surgery, my mom donated to them so they can have the surgery needed.

Finally, picking up dog waste, in this city many people have dogs. When people pick up after dogs can be a big help, if your dog decides to produce on someone's garden, stop them if they do this, because if they do, what is in the garden will die. No one wants to step in dog waste, people visiting Paducah may think it is un-polite for dog waste to be all over the city! I know on my street many people walk their dogs, and me and my family get angry when dogs produce in our yard, it is bad manners.

In conclusion, student lead productions, donating, stopping dog waste will help make Paducah an outrageous city!

Sincerely, Chloe Hill

Connor Maxie Clark Mrs. Lambert 5

Dear Mayer Bray,

I will help make Paducah beautiful by being kind, and picking up trash read on to hear more.

First, by being kind to others you help spread kindness which helps. Because if people knew that we where nice they would want to stay here in Paducah. You can be nice by donating to people and charities. By doing that you help people that need things for example say their people that need jackets so they stay warm but don't have the money. So you can help with that by donating to them so they can stay warm. Another way you can be kind is if you don't burn trash because it is not only bad for Paducah it is bad for the earth.

Also, picking up trash is good for Paducah by picking up trash you are keeping the environment clean. To

explain say you are on a walk and there is trash on the ground you can pick it up and throw it away. And you can also pick up trash from the lake so we can keep it clean. To clean the lake you might want to have a trash bag so you can put trash in it and glove so you can pick up the trash and don't get germs.

In conclusion, These are things that we can do to keep are environment and the earth clean.

Dear Mayor Bray,

I have heard you are planning to beautify Paducah. I have some ideas for you! I will help make my community beautiful by starting a community garden, and making a memorial ground.

First of all, I would put together a big group and clear a big area. After that's done, we would build greenhouses and plant fruits, vegetables, and flowers. The garden will be open Monday - Saturday and the daily hours would be 8:00am to 8:30pm. As you can see, a community garden is a great idea to make Paducah more beautiful.

Secondly, we could start a memorial ground with big memorable statues, and all sorts of things like that. There are just a couple steps to do this. We need to clear an area, put together a team, have a fundraiser, and finally, put that money towards building the memorials. As you can see, a memorial ground would take a lot of work, but would be a great way to make Paducah more beautiful.

I will make my community more beautiful in these ways and hope you consider my ideas.

Sincerely,
Cooper English
